PROJECT HIGHLIGHT

Integrella
June 2021 – Nov 2022

I worked on one of the amazing EduTech project name is **Twig Education** to enhance their eLearning delivery and that e-Learning platform continued expansion across the US & school districts.

Where I worked as a front-end developer. Here I followed agile methodology for product development.

Roles and Responsibilities

- Followed best practice of coding with TDD using RTL, GraphQL using Apollo, ReactJS, Styled Component, micro-frontends.

- Actively participate in agile ceremonies like PI planning, Scrum meeting, backlog refinement.

Quinstreet
Nov 2022 - Present

Working on **Amone** project . **Amone** is a dedicated to creating and maintaining a safe and supportive environment where consumers can get help finding and connecting with trustworthy, respectable companies specializing in personal loan, debt consolidation and credit repair.

Roles and Responsibilities

- Working on web development with financial service tech team.

- Focused on optimizing web properties, internal tools in order to improve speed & maintainability.
  .
